## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-6, 8 and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation “**first and second semiconductor regions being electrically coupled to the electrically conductive wire**” in lines 3-4.

Claim 1 also recites the limitation “**wherein the electrically conductive wire does not electrically couple the first and second semiconductor regions together**” in lines 9-10

As shown above, the recitations of claim 1 in lines 3-4 and 9-10 are contradictory. It is not clear to the examiner, what applicants intend to claim. Is there electrical coupling between the first and second region by the conductive wire? Is there no coupling be coupling between the first and second region by the conductive wire? Is the conductive wire claimed in lines 3-4 is different form the conductive wire that claimed in lines 9-10?

Therefore, the claim is indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 2-6, 8 and 10 are rejected as being directly or indirectly dependent of the rejected independent base claim.

Applicants' cooperation is requested in reviewing the claims structure to ensure proper claim construction and to correct any subsequently discovered instances of claim language noncompliance. See *Morton International Inc.*, 28USPQ2d 1190, 1195 (CAFC, 1993).

***Allowable Subject Matter***

3. Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

4. Claims 2-6, 8 and 10 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

5. The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record neither anticipates nor renders obvious the claimed subject matter of the instant application as a whole either taken alone or in combination, in particular, prior art of record does not teach “an electrically conductive strap which electrically couple the first and second semiconductor regions together,” as recited in claim 1.

***Response to Arguments***

6. Applicants’ arguments with respect to claims 1-6, 8 and 10 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

7. Applicants’ amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 2823

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
